

AV8R AIRCREW PLATE CARRIER

P/N: AV8R-[SIZE]

OVERVIEW

The aircrew plate carrier AV8R is designed to meet the needs as a fire retardant modular armor carrier vest for aircrew personnel. The vest has laser cut MOLLE for placement of mission essential survival, evasion, medical, and rescue items for downed aircrew members, and incorporates ditch straps to release only the ceramic armor plates. The AV8R is designed to accept an emergency extraction device as well as a full aircrew harness with release tether internally. AV8R accepts several different types of release buckles at the shoulders and at the waist.

FEATURES

- Laser cut MOLLE
- Laser cut shoulder pads for increased comfort
- Accepts FASTEX™, COBRA™, TUBES™, or National Moldings™ shoulder and cummerbund buckles
- Laser cut cummerbund
- T bars for LPU or Removable Front Flap mounting
